

## West Davis Corridor EIS Study

The West Davis Corridor Environmental Impact Statement moves into a new phase in June – Alternatives Development!

In May, The draft “Purpose and Need” chapter was released for public comment through June 7. The chapter and a summary are available for download at [www.udot.utah.gov/westdavis](http://www.udot.utah.gov/westdavis).

At the next public open houses, we will invite the public to help develop alternatives that meet the Purpose and Need. These “Alternatives Workshops” will be held from 4:30 to 7:00 p.m. on June 29 and 30, and July 1, 2010. Meeting locations will be published on our website in early June.

Stay informed about upcoming events by signing up for our monthly e-mail updates! Please contact us at [westdavis@utah.gov](mailto:westdavis@utah.gov) or 877-298-1991.
