Message:

As a Roy Resident for over 20 years, I am passionate about continuing to evolve and enhance positive growth throughout Roy City. I am proud to live and work in such a diverse and accepting community. Having served in many facets through the years, I have a broad range of experience. As a real estate agent, I am mindful of development and property improvement. With many years of bookkeeping experience, my proficiency in accounting and finance will be an asset to the city economically. My main driving force however, has been the children in our community as a mother and as a volunteer. Through PTA and the school community councils, I have learned that we should all be working toward the greater good. This serves our children, ourselves, and in turn our community. Roy City needs to be the place that we shop, dine, and live; not just the place that we drive through. The Key to the Success of Roy City, is to preserve and enrich our community so that our children will want to continue to live here and raise their own families here. My purpose, a better future for Roy City and its residents.
